

## **GUIDELINES FOR TRAVEL GRANT PROPOSALS**

The Center for Cellular and Molecular Neuroscience is pleased to be offering at least four travel grants to deserving Caltech neuroscience students and postdocs. These grants, as envisioned, will provide the opportunity to attend and present at a large conference, creating exposure and better prospects for the future. Please note, the research being presented must have been carried out at Caltech. The grant will cover some or all of the costs to attend. The ideal applicant will have already applied and been accepted to present.

Please submit a request for funding containing the following:

- Full name
- Research Group
- Grad Student or Postdoc and year
- Name of Conference you wish to attend
- Dates
- Location
- Title and abstract for presentation or poster you will be presenting
- Proof of presentation acceptance
- Budget/estimate of funds needed

Send a pdf file of your request for funding to [Chen.Inst@caltech.edu](mailto:Chen.Inst@caltech.edu). Applications accepted at any time as long as funds remain.
